CHAPTER 1

Getting Started

Wizarding World turns Terraria into a Harry Potter adventure. You start as a first-year with a single wand and follow a guided route through 12 boss fights, a Horcrux hunt and the Battle of Hogwarts to Lord Voldemort, then claim the Deathly Hallows in a short epilogue. Along the way the mod adds wands and spells, house armor, magical creatures, town NPCs from the books, potions, events and a three-zone Forbidden Forest.

How to use this guide

Chapters 1 and 2 are a walkthrough: what to do first and the order the bosses unlock in. The rest of the guide is reference you can dip into: every boss, wand, armor set, accessory, potion, mount, pet, enemy and system, with the numbers taken from the mod's source code.

Installing the mod

1. Install tModLoader from Steam (it is a free DLC for Terraria) and the .NET 8 SDK.
2. Copy the WizardingWorld folder into Documents/My Games/Terraria/tModLoader/ModSources.
3. Start tModLoader and open Workshop > Develop Mods, then choose Build + Reload.
4. Enable Wizarding World in the Mods menu and create a new character and world.

The mod is a release candidate and is not on the Steam Workshop yet, so for now it is built from source as above. Requires tModLoader 1.4.4 or later.

Your first steps

1. Use a Life Crystal (120 max HP) or beat your first boss: an owl delivers your Hogwarts Letter and a free Oak Wand.
2. Craft an Enchanting Table at a Work Bench from 20 wood, 5 Fallen Stars, 2 Amethyst and 5 Torches (no amethyst? 25 Stone works too, with a little more wood, stars and torches). Almost every wand, potion, armor piece and boss summon is made there.

3. Look for the Wizard Tower on the surface; its chest holds starter wizard loot.
4. Build a house for Ollivander, the wandmaker, who moves in once you own a wand.
5. Collect Essence of Magic from magical creatures. It is the mod's universal crafting material.
6. Summon the Mountain Troll with a Smelly Sock (1 Silk + 1 Fallen Star) when you feel ready.

> **Not sure where to go next?**
>
> Two items keep you on track: the Boss Compass shows which boss is next and what it needs, and the Wizard's Almanac summarizes your progress through the route. Check them whenever you are unsure where to go.

Core ideas

The Hogwarts Letter

When you first reach 120 max HP (after using a Life Crystal) or defeat an early boss, an owl immediately delivers a Hogwarts Acceptance Letter. This grants a free Oak Wand and a short starter path for the mod.

The Enchanting Table

The Enchanting Table is the mod's core crafting station. Nearly every wand, armor piece, potion, accessory, and boss summon uses it. Craft it early at a Work Bench from wood, Fallen Stars, torches, and either amethyst or stone; dungeon books are no longer required.

The Wizard Tower

A small Wizard Tower generates on the surface during world creation. It contains a chest with starter wizard loot: a wand, potions, Essence of Magic, Fallen Stars, and an Enchanting Table. Only one spawns per world.

Spell Damage

The mod adds a custom damage class: Spell Damage. All wands deal Spell Damage. Armor, accessories, and buffs that boost spell damage are clearly labeled. Spell Damage benefits from generic damage bonuses but has its own modifiers.

The Forbidden Forest

A custom biome that replaces normal forest spawns with magical creatures. Spawn diversity increases as more wizard bosses are defeated. The biome has increased spawn rates and drops exclusive materials like Unicorn Blood.

Mod settings

Setting	Range
Enemy Spawn Multiplier	0.1x to 5.0x
Boss Health Multiplier	0.5x to 5.0x
Spell Damage Multiplier	0.5x to 3.0x
Death Eater Invasion Chance	0x to 5.0x
Essence Drop Multiplier	0.5x to 5.0x

Change these under Settings > Mod Configuration > Wizarding World.

CHAPTER 2

The Boss Route

The order the summon items allow, from the first night to the final battle. A boss cannot be summoned until its requirement is met, so this is also the order you will meet them in.

	#	Boss	HP	Requirement	Notes
	1	Mountain Troll	1,500	No requirement	First boss. Any starter wand will do.
	2	Professor Quirrell	3,500	After the Mountain Troll and the Eye of Cthulhu	Second boss. Gear: Holly/Vine/Phoenix Feather Wand.
	3	Basilisk	4,500	After Professor Quirrell and Skeletron. The last pre-Hardmode boss	Unlocks Sword of Gryffindor. Final Pre-HM boss.
	4	Aragog	8,000	Any time in Hardmode	Giant spider. Spider Silk materials.
	5	Fluffy	18,000	After any Mechanical Boss	Three-headed dog. Music is its thematic weakness.
	6	Hungarian Horntail	28,000	After any Mechanical Boss	Dragon. Unlocks Dragon Scale armor.
	7	Dolores Umbridge	20,000	After the Hungarian Horntail and a Mechanical Boss	The Debuff Boss. High defense, low damage.
	8	Fenrir Greyback	25,000	After Dolores Umbridge, during a Blood Moon	Werewolf boss. Blood Moon only.
	9	Bellatrix Lestrange	35,000	After Fenrir Greyback and Plantera	Aggressive duelist.
	10	Barty Crouch Jr	30,000	After Bellatrix Lestrange and Plantera	Shapeshifter with 3 distinct phases.
	11	Dementor King	45,000	After Barty Crouch Jr and Golem, at night	Penultimate boss. Patronus = +30% dmg bonus.
	12	Lord Voldemort	60,000	After the Lunatic Cultist, at night	True Final Boss. Weakened by Horcrux Hunt.

Before the final battle

Destroy the Horcruxes and hunt down Nagini first: every Horcrux you destroy weakens Lord Voldemort. After him, the Deathly Hallows epilogue begins (Chapter 13).

Endgame goals

- Destroy the core Horcruxes, reclaim the true cloak, and awaken the stone through Dumbledore
- Craft Wizengamot armor set (Post-Moon Lord ultimate spell armor)
- Master the Elder Wand through the Wand Mastery system
- Craft the Philosopher's Stone from all boss materials
- Complete the Dark Wizard armor set for max spell damage build
- Complete the Spell Combo system (all 6 combos)
- Reach House Champion status (500 House Renown)
- Collect all 6 pets and 5 mounts

CHAPTER 3

Bosses

Twelve bosses span the whole game, from a troll in the dungeon to the Dark Lord. Each is summoned with its own item, made at the Enchanting Table, and can only be summoned once its requirement is met. Every boss has several phases and exclusive drops; Expert mode adds a treasure bag item.

CHAPTER 4

Wands & Spells

Wands are the mod's main weapons. All of them deal Spell Damage and cost mana, and each casts a signature spell. They are grouped below by when you can make them.

Tier 1: Starter Wands (Pre-Boss)

Wand	Spell	Dmg	Use	Mana	KB	Rarity	Notes
Oak Wand	Stupefy	12	30	6	3	White	Starter wand, basic stun bolt
Willow Wand	Expelliarmus	16	25	7	7	Blue	High knockback disarming bolt
Alder Wand	Stupefy	17	24	6	4	Blue	Faster Stupefy than Oak

Tier 2: Early Game (Pre-Skeletron)

Wand	Spell	Dmg	Use	Mana	KB	Rarity	Notes
Ash Wand	Incendio	22	20	8	4	Blue	Fire bolt, faster cast
Vine Wand	Wingardium + Aguamenti	25	22	9	4	Orange	Hermione's wand, alternates spells
Holly Wand	Expelliarmus + Protego	28	25	10	5	Orange	Harry's wand, 25% chance shield
Cedar Wand	Lumos Maxima	15	35	15	2	Orange	Light + undead bonus damage
Red Oak Wand	Riddikulus	32	22	10	4	Orange	Anti-Boggart charm; use Patronus for Dementors
Rowan Wand	Bombarda	30	30	12	8	Orange	Explosive, high knockback
Phoenix Feather	Incendio (double)	30	18	10	4	Orange	Chance for double fire shot

Tier 3: Mid Game (Hardmode Entry)

Wand	Spell	Dmg	Use	Mana	KB	Rarity	Notes
Birch Wand	Levicorpus	28	20	10	10	Lt Red	Flips enemies, highest KB wand
Blackthorn Wand	Impedimenta	35	28	14	3	Lt Red	AoE slow jinx
Hawthorn Wand	Chain Stupefy	38	22	12	4	Lt Red	Draco's wand, bounces between foes

	Wand	Spell	Dmg	Use	Mana	KB	Rarity	Notes
	**Cypress Wand**	Conjunctivitis	30	35	15	2	Lt Red	Blinding curse
	**Dragon Heartstring**	Sectumsempra	42	15	12	5	Lt Red	Dark slashing curse, fast
	**Elm Wand**	Reparo	1	40	25	0	Lt Red	Repairs Protego shields, Room buffs, and wards
	**Larch Wand**	Finite Incantatem	1	30	20	0	Lt Red	Cleanse/dispel utility

Tier 4: Late Hardmode

	Wand	Spell	Dmg	Use	Mana	KB	Rarity	Notes
	**Unicorn Hair**	Expecto Patronum	55	35	20	3	Pink	Homing guardian, the anti-Dementor answer
	**Yew Wand**	Crucio + Reducto	48	8	5	2	Lt Purple	Voldemort's wand, channel beam + explosions
	**Ebony Wand**	Apparition	1	25	30	0	Lt Purple	Teleport spell (Rod of Discord-like)

Tier 5: Endgame (Post-Boss)

	Wand	Spell	Dmg	Use	Mana	KB	Rarity	Notes
	**Fiendfyre Wand**	Fiendfyre	95	25	20	4	Yellow	Cursed flames that grow + home
	**Elder Wand**	Avada Kedavra	150	18	40	6	Red	Drops from Voldemort, scales with missing mana (+20%)
	**Infernal Phoenix**	Incendio (triple)	52	16	12	4	Lt Purple	Upgrade of Phoenix Feather Wand, triple fire spread

The Elder Wand drops from Voldemort. The Infernal Phoenix Wand is an upgrade of the Phoenix Feather Wand. The formerly separate Shadow Elder Wand and Wand of Destiny upgrade items have been retired into the Wand Mastery system. 'Wand of Destiny' persists only as Elder Wand mastery flavor.

Not in the tables: the Alohomora Key (shown in game as Alohomora Wand), a lockpick-style utility item that casts Alohomora and has no combat role.

CHAPTER 5

Armor & House Weapons

Eight armor sets span the game. The four Hogwarts house sets are available before Hardmode; Dark Wizard, Dragon Scale and Wizengamot come later. Wizard Robes are vanity only.

Armor sets (8)

	**Troll (enemy)**	45	22	600	Cavern troll. Slow but tanky.

Event objectives (27)

Another 27 targets are not creatures but objectives: ward nodes, seals, relics, portraits and nests that appear during events and missions. Destroy (or collect) them to complete the task.

Target	HP	Where you meet it
Bludger	500	Quidditch matches. Chases players and knocks them back; it never kills.
Quidditch Hoop	1	Quidditch matches: score by hitting it with the Quaffle.
Castle Ward Node	300	Battle of Hogwarts, phase 1: defend it.
Breach Seal	250	Battle of Hogwarts, phase 2: break it.
Ward Anchor	250	Castle ward defense: destroy it to stabilize the wards.
Despair Anchor	500	Azkaban's Despair: each one destroyed lowers the event's intensity.
Prison Wraith	250	Azkaban's Despair: weaker than Dementors, but comes in groups.
Brood Marker	300	Acromantula nests: spawns spiders until destroyed.
Corrupted Trace	200	Unicorn Glade (Forbidden Forest): cleanse the dark taint.
Omen Stone	280	Centaur Skywatch: stabilize it by destroying it.
Thestral Beacon	1	Thestral Clearing: collect by walking up to it.
Doxy Nest	200	Grimmauld Place: spawns Doxy swarms until destroyed.

Hex Residue Node	250	St Mungo's triage: spell damage.
Venom Wound Node	280	St Mungo's triage: creature injuries.

CHAPTER 10

Town NPCs

Sixteen town NPCs move in as you progress. Together they sell wands, beasts, potions, travel, healing and late-game wizard services, and several of them start the mod's quest lines.

	NPC	Shop	Moves in	What they offer
	**Ollivander**	Wand Shop	Once anyone holds a wand, or 3+ town NPCs	Sells starter wands, spell components, the Standard Book of Spells, and staged wand upgrades as bosses fall.
	**Hagrid**	Creature Shop	After the Mountain Troll or the Basilisk, or 5+ town NPCs	Sells creature items, pets and boss summons, staged so you cannot skip ahead in the route.
	**Dobby**	Utility Shop	After the Basilisk, or 6+ town NPCs	Free house-elf. Sells utility items and socks. Loyal helper.
	**Potions Master**	Potion Shop	4+ town NPCs	Sells potion ingredients and pre-brewed potions.
	**Fred and George**	Joke/Combat Shop	After the Basilisk	Weasleys' Wizard Wheezes. Sells pranks and combat consumables.
	**Dumbledore**	Endgame Shop + Hallows Guide	After the Dementor King	Hub of the Deathly Hallows questline; sells endgame items.
	**Centaur**	Nature Shop	After the Eye of Cthulhu, Skeletron or the Eater of Worlds / Brain of Cthulhu	Forest-dwelling NPC. Sells nature and stargazing items.
	**Madam Rosmerta**	Hospitality / Owl Post	After the Basilisk	Runs the Hogsmeade tavern, handles Owl Post, and anchors village-side errands.
	**Madam Hooch**	Quidditch Shop	After the Basilisk	Provides Quidditch supplies, broom support items, and match-focused utility gear.
	**Kingsley Shacklebolt**	Order / Ministry Shop	After Bellatrix Lestrange	Supplies Order-aligned mission gear for Ministry and resistance operations.
	**Remus Lupin**	Defense / Moonward Shop	After Fenrir Greyback	Offers defensive tools and moonward support tied to the Whomping Willow and Shrieking Shack loop.
	**Aberforth Dumbledore**	Resistance Supply Shop	After the Dementor King	Backroom resistance contact supporting D.A. operations and Battle of Hogwarts preparation.
	**Neville Longbottom**	Herbology / Resistance Shop	After your first Battle of Hogwarts victory	Provides plant-based combat gear and support items as Hogwarts resistance escalates.
	**Goblin Teller**	Vault Services	After the Basilisk	Handles Gringotts access, vault progression, and goblin financial services.

	NPC	Shop	Moves in	What they offer
	**Mr Borgin**	Dark Curio Shop	Once Knockturn Alley is unlocked	Runs Borgin and Burkes in Knockturn Alley with cursed wares and dark appraisal goods.
	**Healer**	Medical Shop	Once St Mungo's is unlocked (after the Hungarian Horntail)	Offers restorative supplies and medical support tied to St Mungo's treatment and triage progression.

CHAPTER 11

Systems & Events

18 systems run alongside the bosses: events, a sports season, a tournament, quest lines in Diagon Alley and beyond, and the Battle of Hogwarts.

Forbidden Forest Biome

A custom biome that replaces normal forest spawns with magical creatures. Features increased spawn rates and drops Unicorn Blood as a rare exclusive. Spawn diversity increases as more wizard bosses are defeated.

Death Eater Invasion

Custom invasion event. Triggers randomly at night in Hardmode after defeating the Basilisk, or manually with a Dark Mark item. Spawns waves of Death Eaters, Dementors, and Inferi. Rewards Essence of Magic and rare drops.

Quidditch Cup Season

A school sports loop built around broom play, scoring, and the Golden Snitch. The Quidditch Cup is separate from the House Cup and House Renown progression. Snitch chases, Quidditch hoops, Madam Hooch support, and match rewards all feed this track.

Triwizard Tournament

A champion event centered on the Goblet of Fire. It runs as a Hogwarts, Durmstrang and Beauxbatons competition with champion selection, task progression, lake-rescue sequences, and tournament rewards.

House Renown System

Earn renown for your Hogwarts house through combat. Points grant milestone buffs:
- 50 renown: Minor House Buff
- 150 renown: Major House Buff (5 minutes)
- 500 renown: House Champion (massive all-stat boost, resets renown)

Renown decays 1 per 10 seconds to encourage active play.

Canon-inspired: renamed from 'House Points' since canonical points are awarded by professors.

Spell Combo System

Casting two specific spells in sequence on the same enemy triggers a bonus effect:
1. Stupefy + Incendio = 'Blazing Stun' (AoE fire explosion)
2. Expelliarmus + Sectumsempra = 'Disarming Slash' (massive crit)
3. Protego + any attack = 'Counter-Spell' (reflected damage doubled)
4. Impedimenta + Avada Kedavra = 'Execution' (instant kill non-boss <30% HP)
5. Stupefy + Riddikulus = 'Laughter Shield' (heal 50 HP)
6. Crucio + Fiendfyre = 'Hellfire Torment' (massive DoT stack)

Daily Wizard Challenge

A random daily task that rewards Essence of Magic. Changes every real-world day. Completing the challenge grants 15-30 Essence + a random buff. Check via Daily Prophet item or talking to Ollivander.

Wizard Fishing

Magical fish and wizard loot added to fishing catches. Scales with fishing power and biome.

Wand Mastery System

Wands gain power through use rather than crafting upgrades:
- Level 0 (New): Base stats
- Level 1 (Familiar, 100 XP): -5% mana cost
- Level 2 (Attuned, 400 XP): -10% mana cost, +5% damage
- Level 3 (Mastered, 1000 XP): -15% mana cost, +10% damage, golden visual

XP gained: 1 per enemy hit. Persisted per wand in save data.
The old Shadow Elder Wand / Wand of Destiny upgrade path is retired. 'Wand of Destiny' survives only as Elder Wand mastery flavor text.

Canon-inspired: 'The wand chooses the wizard' -- loyalty earned through use.

Azkaban's Despair Event

A late-game survival event themed around the wizard prison Azkaban. Triggered manually with an Azkaban Breach Stone after Golem. Floods the area with Dementors and Azkaban Guards. Patronus, the Warden's Key, and Ward of Hope consumables are the intended counter-mechanics. Light suppression and despair escalation make this a survival challenge rather than a generic wave event.

Canon-faithful: Dementors are Azkaban's guards, appearing during dark crises.

Room of Requirement

A reusable key item that summons a magical room adapting to the player's needs. The room detects current state and grants a 3-minute buff:
- Recovery Room (HP < 50%): +12 life regen, +15 def, +10% DR
- Training Room (holding wand): +20% spell dmg, +10 spell crit, +40 max mana
- Vault Room (carrying 10+ gold): luck boost, treasure sense
- Sanctuary Room (default): balanced defensive buffs

In late progression it also serves as the Resistance HQ for D.A. / Hogwarts Resistance planning and Battle of Hogwarts staging. Crafted at the Enchanting Table. Cannot be used while any Room buff is active.

Canon-faithful: 'I need a place to...' -- the Room appears when someone has great need.

Diagon Alley and Gringotts

The Leaky Cauldron acts as the hidden gateway into Diagon Alley. From there, Gringotts opens a cart descent into vault encounters, goblin services, and treasure-focused progression.

Knockturn Alley

A darker side street off Diagon Alley tied to Borgin and Burkes. Mr Borgin handles cursed trade, dark appraisals, and sinister utility items for players leaning into riskier wizard progression.

Whomping Willow and Shrieking Shack Passage

The Whomping Willow conceals the route to the Shrieking Shack. This secret passage loop emphasizes guarded transit, moonward preparation, and hidden approach rather than a tourist landmark.

St Mungo's Triage

A healing and recovery loop centered on St Mungo's and the Healer NPC. It focuses on treatment, triage, restorative support, and emergency stabilization rather than resurrection.

Forbidden Forest Expeditions

Forest progression extends through multiple expedition routes, culminating in the Thestral Clearing as the fourth expedition loop for late exploration.

D.A. / Hogwarts Resistance

Late-game resistance content built around Dumbledore's Army, the Hogwarts Resistance, castle-side preparation, and rallying defenders through Aberforth, Neville, and allied support loops.

Battle of Hogwarts

The final siege layer where Hogwarts Resistance systems, castle defenses, rally buffs, and endgame story progression converge before the Voldemort finale.

CHAPTER 12

Crafting Materials

Twenty materials make up the mod's crafting backbone. Most drop from creatures and bosses; Essence of Magic, which every magical creature drops, goes into nearly every recipe.

	Material	Source	Used for
	Essence of Magic	All magical enemies, bosses, challenges	Universal crafting material. Used in nearly every recipe.
	Phoenix Ash	Rare drop from fire enemies	Endgame crafting, resurrection items.
	Phoenix Tear	Rare drop, quest reward	Healing items, powerful potions.
	Dragon Scale	Horntail boss, dragon enemies	Dragon Scale armor set, accessories.
	Unicorn Blood	Forbidden Forest exclusive drop	Powerful potions and accessories.
	Demiguise Hair	Demiguise (Forbidden Forest)	Ordinary stealth cloaks, concealment items.
	Spider Silk Weave	Acromantula, Aragog	Spider Silk Cloak, web-themed items.
	Ashwinder Egg	Ashwinder drops	Fire potions, incendiary items.
	Werewolf Pelt	Werewolf / Fenrir drops	Werewolf Cloak, lycanthropic items.
	Cerberus Fang	Fluffy boss	Cerberus Fang Necklace, beast accessories.
	Merfolk Scale	Merfolk / ocean fishing	Merfolk Amulet, aquatic items.
	Grindylow Tooth	Grindylow drops	Aquatic accessories.
	Bowtruckle Catch	Bowtruckle (surface)	Nature-themed crafting.
	Jobberknoll Feather	Jobberknoll (sky)	Memory Potion, feather items.
	Imp Flame	Magical Imp (underworld)	Fire-themed crafting.
	Dugbog Hide	Dugbog (jungle)	Leather armor upgrades.
	Enchanted Tadpole	Forbidden Forest fishing	Bait + Essence ingredient.
	Magical Koi	Any water fishing (rare)	Potion ingredient.
	Dementor's Shroud	Dementor King; Lethifold (1 in 5)	Wizengamot armor, Dementor's Embrace, Patronus Focus, Azkaban ward items.
	Golden Egg	Hungarian Horntail; Sphinx (1 in 10)	Time Turner, Philosopher's Stone, Champion's Medallion, Baby Dragon pet and more.

CHAPTER 13

The Deathly Hallows

The three Deathly Hallows form a hidden set bonus when all are equipped/held simultaneously.

The three artifacts

Elder Wand

Invisibility Cloak

Resurrection Stone

- Elder Wand (weapon, held in inventory) - 150 base damage Avada Kedavra
- Invisibility Cloak (accessory, equipped) - Invisibility, -400 aggro, +5% damage
- Resurrection Stone (accessory, equipped) - +40 max HP, life regen

Master of Death

When all three are active, the hidden 'Master of Death' state is awakened as a world milestone. Effects are survival-oriented: debuff immunities, detection, reduced aggro, corruption cleansing, moderate stat boosts, and one fate-style death rescue per Terraria day.

How to obtain them

- Elder Wand: 100% drop from Lord Voldemort
- Invisibility Cloak: unique reward from Dumbledore after Azkaban's Despair + core Horcrux Hunt
- Resurrection Stone: awakened from Gaunt's Ring by Dumbledore after Voldemort falls

CHAPTER 14

Canon & Mod-Original

The Wizarding World mod draws heavily from the Harry Potter series. Most content is faithful to the source material, but some mechanics are adapted or original for gameplay reasons.

Canon-faithful

Directly faithful to books/films

- Elder Wand as the single Deathly Hallow wand (not a separate Wand of Destiny item)
- True Invisibility Cloak as a unique, non-craftable heirloom
- Resurrection Stone tied to Gaunt's Ring
- Riddikulus as the anti-Boggart charm (not anti-Dementor)
- Patronus as the primary anti-Dementor defense
- Dementors tied to Azkaban, dark events, and narrative context
- Fluffy's weakness is music/sleep

Canon-inspired adaptations

Based on canon concepts but adapted for Terraria gameplay

- Wand Mastery system (loyalty through use, inspired by 'the wand chooses the wizard')
- House Renown (combat-based; canonical House Points are professor-awarded)
- Reparo repairs magical wards and buffs (canon repairs objects; adapted for gameplay utility)
- Horcrux Hunt weakens Voldemort mechanically (narrative simplification of book 7)
- Spell Combo system (original mechanic inspired by wizard dueling)

Mod-original content

Original gameplay content not from the source material

- Phantom Stag (Hallow biome enemy, not a real corrupted Patronus)
- Room of Requirement as a buff-granting key item
- Dark Arts Corruption meter
- Spell Damage as a custom tModLoader damage class
- Infernal Phoenix Wand (upgrade of Phoenix Feather Wand)

Wizarding World

12 bosses · 24 wands · 51 creatures · 64 accessories
8 armor sets · 19 potions · 5 mounts · 6 pets · 16 town NPCs
English, Simplified Chinese and Traditional Chinese · tModLoader 1.4.4+

“After all this time?” “Always.”
